Chairman, W117L Advisory Committee
Bendix Aviation Systems Division
Ann Arbor, Michigan

Dear Harry:

I tried to reach you by phone on 3 December while you were off to Philadelphia. My question related to your 3 September 1958 Report of the W117L Advisory Committee and specifically to the attachment on General Factors Affecting RADC's R-W Work Statement. In this statement on page 3, item 4 reference is made to the Intelligence Requirements Committee's reports, i.e., Dulles Committee having been given to R-W as a design objective for the Mark II-III system. I have just been asked here what reports this refers to and what Dulles Committee is identified. Can you give me a specific reference to these reports and the Dulles committee named? Thanks very much for your help on this.

I plan to be at Rome on 15-16 December and we look forward to seeing you then. With best wishes and kindest personal regards, I am

STAT

Sincerely yours,
